WORK EXPERIENCE

Advanta Medical Solutions

Remote / **Annapolis Junction, MD**

Frontend Developer (*full-time*)

August 2020 – Present

- Built responsive, WCAG-complaint (accessibility), cross browser compatible web applications
- Developed brand appropriate design systems, including flexible and reusable UI components
- Designed high-fidelity UI wireframes based on fast-changing business requirements
- Worked alongside back-end, quality assurance and cybersecurity teams to ensure successful production deployments, utilizing Agile methodologies and popular project management software
- Took ownership of new features, all the way from design to technical implementation
- Composed documentation to promote code maintainability and boost developer productivity
- Onboarded new team members to projects in active development
- Interviewed key stakeholders to gather accurate development requirements

Association, Innovation and Management, Inc.

Reston, VA

Web Designer (*contract*)

February 2020 – May 2020

- Designed and implemented user-interfaces to fit an existing design system
- Proposed technical and design improvements that made its way into the final deliverables
- Integrated modern web development libraries into the codebase for faster development

PERSONAL PROJECTS

Movie Swiper (web application)

Project overview & live site: <https://www.julianvaz.com/movie-swiper>

- Designed [wireframes](#), [user flows](#) and a [design system](#) to ensure a consistent user interface and experience
- Developed a React & NodeJS application, leveraged web sockets for real-time user interactions
- Acquired domain name and hosted the application on a virtual private server powered by NGINX
