EDUCATION

University of Maryland, College Park   **College Park, MD**
Bachelor of Science in Information Science
- GPA: 3.84 / 4.0, graduated with Latin honors
- Relevant Coursework: Dynamic Web Applications, Object-Oriented Programming, Database Design and Modeling, User Centered Design, Data Sources and Manipulation, Infrastructure and Architecture

WORK EXPERIENCE

Advanta Medical Solutions   Remote / **Annapolis Junction, MD**
Frontend Developer (*full-time*)   *August 2020 – Present*
- Led and worked on the development of a **responsive**, **accessible**, **cross-browser Angular/.NET Core application,** including **database schema & API design** and **UI/UX design**
- Developed a **React application** for a government website, complete with a custom **UI component library**
- Integrated **AWS** to convert a monolithic **.NET Core application** to a **microservices architecture**
- Interviewed users and stakeholders to gather accurate **development requirements,** design **high-fidelity wireframes** and advance the **product roadmap**
- Followed the **Scrum Agile** methodology on a team with **backend**, **QA** and **cybersecurity** personnel to ensure **rapid software iteration** and frequent **production deployments**
- Composed detailed **documentation** to promote **code maintainability** and a better **onboarding** experience
- Mentored new team members in modern **frontend development** and **UI/UX design fundamentals**

Association, Innovation and Management, Inc.   **Reston, VA**
Web Designer (*contract*)   *February 2020 – May 2020*
- Designed and implemented **user interfaces** according to client requirements
- Proposed **technical and design improvements** that made its way into the final deliverables
- Integrated **modern web development libraries** to fit an existing **design system**

SKILLS

Frontend: JavaScript/TypeScript, HTML, CSS/SCSS, React, NextJS, Angular, RxJS, UI/UX design, wireframing/prototyping, component libraries, design systems, responsive/mobile web design, web accessibility

Backend: NodeJS & Express, C# & .NET Core, SQL, database schema design, API development

Tools: Git, AWS, Azure DevOps, Jira, Confluence, Figma, AdobeXD

Spoken Languages: English, Spanish

PERSONAL PROJECTS

Movie Swiper (web application)
Project overview and live site: *www.julianvaz.com/movie-swiper*
- Designed wireframes, user flows and a design system to ensure a consistent **user interface and experience**
- Developed a **React** & **NodeJS** application, utilized **web sockets** for real-time user interactions
- Set up a personal **cloud virtual private server** to host the application
