WORK EXPERIENCE

Frontend Developer — ZARA *Remote / Barcelona, Spain — 2023 - Present*

- **Developed the e-commerce's public-facing interface**, serving millions of daily visitors with a **high performance**, **stable** and **user-friendly experience**.
- **Delivered flexible, configurable solutions** that **empowered product and editorial teams** to launch new digital experiences faster and **adapt to evolving business needs**.
- **Implemented accessibility-compliant features** (WCAG), ensuring inclusive usability for all customers and mitigating potential legal and financial risks.
- **Maintained 85%+ code coverage** with automated tests (Jest, Cypress, Mocha, Chai), reducing regressions and ensuring reliable weekly releases.
- **Diagnosed** and **resolved** critical production issues rapidly, minimizing downtime and preventing potential revenue loss.
- **Mentored junior developers** through code reviews, knowledge-sharing sessions, and pair programming, **accelerating their productivity** shortly after onboarding and **elevating** overall **team expertise**.

Frontend Developer — Advanta Medical Solutions *Remote / Maryland, USA — 2020 - 2023*

- **Designed** and delivered a **full-stack web application** built with Angular and .NET Core, implementing **database** schema, RESTful **APIs**, and responsive, accessible **UI/UX**.
- **Developed** a **React** application for a government website, complete with a custom **component library**.
- **Interviewed** users and stakeholders to **gather development requirements, design** high-fidelity **wireframes/prototypes** and implement a minimum valuable product.
- Followed the **Scrum Agile** methodology on a team with **backend**, **QA** and **cybersecurity** personnel to ensure **rapid software iteration** and frequent **production deployments**.

Web Designer — Association, Innovation and Management, Inc. *Virginia, USA — 2020*

- **Worked with modern web development libraries** to **enhance** the existing **web application**.

EDUCATION

University of Maryland, College Park *Maryland, USA*

Bachelor of Science in Information Science

- GPA: 3.84/4.0, graduated with honors
- Relevant Coursework: Dynamic Web Applications, Object-Oriented Programming, Database Design and Modeling, User Centered Design, Data Sources and Manipulation, Infrastructure and Architecture

SKILLS

Frontend: JavaScript, TypeScript, HTML, CSS/SCSS, React, NextJS, Angular, unit/integration/e2e testing, UI/UX design, wireframing/prototyping, component libraries, design systems, web accessibility

Backend: NodeJS, Express, SQL, database schema design, API development

Spoken Languages: English, Spanish

PERSONAL PROJECTS

Movie Swiper (web app): add movies to a shared list and vote to find the perfect one to watch.
Project overview, Figma and live site links: *www.julianvaz.com/movie-swiper*

- Designed wireframes, user flows and a design system to ensure a consistent **user interface and experience**.
- Developed a **React** & **NodeJS** application, powered by **web sockets** for real-time user interactions.
- Hosted on a personal **cloud virtual private server**.
